MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Office of Personnel Report - Week Ending 15 August 1969

1. Cooperative Education Program: The Office of Scientific Intelligence has its first two co-ops in process. We hope they will enter on duty with us the end of September.

25X1A

2. Position Classification - [REDACTED] We are reviewing the pay system applied to the cafeteria employees [REDACTED] in an effort to establish a better system for making adjustments when pay increases are granted in this occupational field elsewhere.

25X1A

3. Record Purging: As of 15 August 818 cubic feet of Official Personnel Folders have been purged of materials of no legal, administrative or historical significance. Of the total 818 cubic feet reviewed, only 471 cubic feet were returned to the center. This review has resulted in a reduction of 347 cubic feet to be stored in the Records Center.

4. Credit Union: For the first time in its history, the Credit Union finds itself in the happy and enviable position of having almost all of its money loaned out to members. 1969 has been an incredible loan year so far. Clearly, this can be attributed to the tight money market and consequent increase in interest rates charged by commercial institutions and the Credit Union's favorable interest rate structure.

As of 31 July, loans in the amount of \$13,107,295 actually exceeded share deposits in the amount of \$12,756,403, and at the current rate of loan

disbursements, we expect the balance of financial resources to be used in November. For this reason, the Credit Union's Board of Directors, at a special meeting last week, decided to suspend the current ceiling on deposits, namely, \$50.00 a month, the \$5,000 maximum ceiling on share deposits accrual, and will permit members to deposit their money without limitation until 31 December 1969. A Bulletin and Book Dispatch are being prepared announcing this to members. Those same announcements will also state that on the basis of indications to date and projections to 31 December 1969, the dividend for 1969 should be in excess of 5%.

1. Cost-of-Living Allowances and Post Differentials: As requested by Executive Order 10,000, the Commission has reviewed the cost-of-living allowances and post differentials which are paid to statutory-salaried employees in nonforeign areas under 5 U.S.C. 5941.

SUBJECT : Office of Personnel Report - Week Ending 3 July 1969

1. Briefing Two Civil Service Commission Officers on Agency's Retirement Planning Program: On 24 June Dr. Daniel Sinick and Mr. Gerald Bryon of the Civil Service Commission were briefed by members of Retirement Affairs Division on the Agency's retirement planning program. These two officers, assigned to the Training Branch of the Retirement Division, are responsible for preparing a program for training the persons in the various departments and agencies in retirement planning and retirement counseling. After a review and critique of the retirement movie, "The Rest of Your Life," the two officers participated in a wide-range discussion of the program followed in CIA. The comments of Dr. Sinick to the effect that our program was "very well organized" and "ahead of everyone else's" were indicative of the evaluation he attached to our program.

2. Seminar on Second Careers: The first Seminar on Second Careers was held on 25 June. This one was devoted to Education as a second career. The three invited discussion leaders were: Dr. William McCampbell (Director of Continuing Education, Northern Virginia Community College), Dr. Norman Gould (Associate Professor, Department of Psychiatry, School of Medicine, University of Maryland), and Dr. Douglas Garner (Executive Secretary, American Association of College Registrars and Admissions Officers). The seminar, a one-day affair, was held in Room GA-13, which has 79 seats. Only eight seats were empty during the seminar. Critiques submitted by participants show that the vast majority rated the seminar Very Good, with a few Excellent and a few Good. Considering that this was the very first seminar on second careers, the results were heartening.

3. Blood Donor Day: Blood Donor Day this month, 1 July, was fraught with many difficulties which caused the average time for a donor to increase from 36 minutes on 3 June 1969 to 65 minutes on 1 July. The difficulties started early when apparently the air conditioning malfunctioned and it took nearly an hour to get electric fans, etc., to cool the area. The excess heat caused a chain reaction in that many of the donors became ill, which also increased the average time. One donor became very ill with vomiting at about 11:40, which brought some processing to a stop until we could get a clean-up crew. At about 1:30 p.m. one of the donors collapsed, requiring medical attention from the Office of Medical Services and an ambulance to take him to Alexandria Hospital. All of these incidents tended to slow down the processing. In spite of these problems, there were 193 pints of blood collected.
